

# SERVE & PROTECT

Ingrained in You. Designed in Us.

Protect those you serve and yourself with ExpressWash and ExpressDry. Firefighters know dirty gear is dangerous. As more and more particles and chemicals attach to protective gear, it gradually loses its effectiveness—putting firefighters and those they come in contact with at risk. Continental gear washers and dryers are equipped with a plethora of features to ensure turnout gear is properly cleaned and back into service fast.

Visit [www.continentalgirbau.com/firedepartments](http://www.continentalgirbau.com/firedepartments) or call (800) 256-1073 to learn more about ExpressWash Gear Washers and ExpressDry Gear Dryers.
